College/Career Exploration

Explore Careers & Majors

Don’t know what kind of career you might be interested in after high school? Check out this website so you can start thinking about possible job interests:

http://knowhow2go.org/seniors_explore.php

After thinking about possible careers, look at some of the following websites to help you explore majors and occupation descriptions. This will give you some insight on average salary, entry requirements for the positions and information on what the job is like.
